

PROFESSIONAL SUMMARY

- 3+ years of professional experience in Analysis & Development of Enterprise grade Applications to handle large scale merchant data for client. Hands-on experience in Hadoop Ecosystems tools like Hive, Spark Core, Spark Streaming, MapReduce, Yarn, Hdfs, Pig, Oozie and Kafka.
- Around 6+ years of designing and maintaining backend systems.
- Successfully delivered couple of initiatives (Implementation & Development) on Big Data Analytics & large data processing using Hadoop ecosystems.
- Proficient in development methodologies such as Agile.
- Experience in installing, configuring, testing Hadoop ecosystem.
- Capable of processing large sets of structured, semi-structured and unstructured data and supporting systems application architecture.
- Experience of collaborating with teams across the world to deliver best industry standards applications.

PROFESSIONAL EXPERIENCE

Role: Software Developer**Organization: Impetus****Client : American Express****(Sep 21 – Present)**

- Development of API in Vert.x framework to handle merchant's big data (Apache Hbase) as well as NOSQL database (Couchbase).
- Functionality to expose edit log history for updates.
- Synchronised data across database using Spark and Spring Batch process.
- JDK enhancement for APIs.
- Role and access management for consumers.
- Working experience on enterprise cloud platform.
- Creation of data quality framework used across all big data jobs.
- Implementation of new approach for DELTA data calculation in spark.

Role: System Developer**Project: Mitsubishi Motors Corporation****(Dec 2020 – Sep 21)**

- Storage of EDR data at remote cloud-based resource using AWS.
- Data analysis for improvement of ADAS functionality.

Role: Assistant System Developer**Project: Mitsubishi Motors Corporation****(Jan 2018 – Dec 2020)**

- Improvement in efficiency of AEB and FCW.
- Development of web-portal for keeping benchmarking data for TCS and MMC reference.
- Development and enhancement of Advanced Driver Assistance Systems.
- Responsible for designing and implementing Event Data Recorder alike black box.
- Enhancement of EAP functionality with rigorous analysis and testing.

TECHNICAL SKILLS

Languages: Java , Scala , Spark , Hadoop , Shell scripts

Concepts : Micro services , Design Patterns , Big data storage and processing , Data structure and algorithms

Big Data Ecosystem: Spark, Kafka, Hadoop, HDFS, Hive, Zookeeper , HBASE shell usage

Framework : Spring Core, Spring MVC, Spring Boot, Spring Batch ,REST, SOAP, Hibernate, Junit, Microservices, Kubernetes

Databases: MySQL, Oracle, MongoDB, PL/SQL, HBASE , Couchbase

CI/CD Tools: Jenkins, Azure CI/CD pipelines

Version Control tools: Git, Bitbucket

Tracking tool: Jira, ServiceNow, Rally

Operating systems: Linux , Windows

PROJECTS

Social Media Console Application

- Sign up and login
- User feed , profile info follow/unfollow other users
- Post , reply on post , wall feed etc.

EDUCATION

- Bachelor of Engineering (E&TC) from Army Institute of Technology, Pune in 2017.
- 12th from Army Public School, Bikaner, Rajasthan in 2012.
- 10th from Army Public School , Bareilly , U.P in 2010.

PERSONAL SKILLS

Cheerful, creative and hard-working , Professional , Accountable

Good inter-personal and management skills, Proficient in English and Hindi with high proficiency.
